

What are the most popular or best selling products or services?

Interior redesign, color consultation, and organizing.

People may be surprised to know...

They have far more design sense than they give themselves credit for. What they may lack is the confidence to trust it.

What was the inspiration behind starting your business?

I spent several years on the corporate side of the design world, which left me starved for real creativity and expression. I also wanted to offer design services to those who might not be able to afford lofty interior design fees. Since I love working with style and space but don't love playing by the alleged rules, creating my own brand of redesign and consulting services seemed an ideal way to go. And I have absolutely no regrets!

### Creatively Efficient.

Nest's work is all about infusing new life into your home without the fuss, or expense of a complete redecoration. Rather than starting from scratch, she starts with what you have, and artfully arranges, clears, and colors your space to create just the right look and feel for the way you live. The best part? There are no rules!
